What we have

Count your cards at the end of every round (R1, R2 ...) and write the number. Goods on your needs list: check them off above. Any other new good goes in a blank row. The Dock's count is the official one if they disagree.

CAPTAIN'S LOG

Write every deal your Harbormasters vote yes to, and every voyage **before** the Captain leaves. Copy each voyage onto a **Captain's Manifest**; this Record stays at your table.

- A ship carries **6 goods at most. One voyage per Shipping round.**
- Write **both ways** before the Captain leaves, then copy the voyage onto a Captain's Manifest.
- Only the **Merchant** or the **Captain** is away from port at once, never both.
- Your Merchant may say "yes if my team agrees." The deal counts only when your Harbormasters vote yes.
- Hiring a ship? It is your one voyage: your Captain, the manifest. The fee rides as cargo, counts toward the 6, and goes to the ship's owner.
